Sheila,

One more thing...

Given that this has bonus miles in it, do we want to pay for endorsements?

- Forwarding
- return undeliverables

Usually, this is expensive (please cost out...might be in the \$1.50 range on 10% of mail that goes out... $2,974,000 \times 10\% \times 1.50 = \$446,100$ )

LBCo. needs to add endorsements to keyline if we choose to go with.

Thanks, Eileen

Good Catch! I believe that you are correct about the "3rd Class", but I have to check into pre-sorted since it is actually that Post office that is sorting them. I'll get back to you as soon as I can verify.

This is not what he told us on the phone (he left "Pre-sorted" out and "3rd Class"). In order to qualify for presorted mail (that's why we made the name/address window 3 1/2" above the fold), don't we have to put "Pre-sorted" on the envelope?

I'll wait to hear from you before marking up the boards.
